

PRESS RELEASE

For immediate release

CLOSURE OF THE WAKEFIELD SPRING

La Pêche, October 20, 2017. The Municipality would like to inform residents that yesterday's water test results came back normal, and further testing was done today. According to the *Regulation respecting the quality of drinking water*, two samples, taken less than 72 hours apart, must be tested in two days. If no microbiological contamination is found in either sample, the boil water and drinking water avoidance advisory can be lifted.

The Municipality should receive the latest test results today (October 20) or tomorrow. If these results also come back normal, the spring may be reopened sometime tomorrow, October 21.

Thank you for your cooperation.
