

# PRESS RELEASE

*For immediate release*

## RE-OPENING OF THE WAKEFIELD SPRING

La Pêche, October 26, 2017. The Municipality would like to inform residents that the results of the second water analysis conducted on Friday, October 20 revealed nothing abnormal, just like those from the first analysis done the day before. In accordance with the *Regulation respecting the quality of drinking water*, since those two samples confirmed the absence of contamination, the boil and non-consumption advisory was therefore lifted on the morning of Saturday, October 21.

The Municipality thanks you once again for your cooperation and patience.
