Closing of the arena at the La Pêche Sports Complex

La Pêche, January 27, 2021. Considering the current situation related to the COVID 19 pandemic and the uncertainty of an eventual return to activities on the ice, the Municipality of La Pêche has decided to remove the ice surface at the La Pêche Sports Complex. This decision will help reduce operating costs of the arena since the building no longer provides services to users.

As a result, the ice surface will not be available for rent until next August. However, the Desjardins Hall attached to the arena remains operational.

We would like to thank our users, associations and groups involved with the arena, and we hope for a return to normal for next season.
